	USD: 1,991.45
Standard price	
	Exchange rate 1USD= 149.64JPY
	Valid price in Japan
Quantity	1piece

Class I

Features

- <Circulation system >
- This tool can be used for rust and coating removal, and for metal, plastic and glass surface finishing or grinding by spraying abrasives at a high pressure.
- A circulation system is adopted to reduce the consumption of abrasives. Its compact design is suitable to the use in a laboratory.
- Sandex V has more injection power, and allows you to use the carborundum abrasive which is a strong grinding agent.
- <Pressurization system >
- The pressure nozzles allow you to utilize the used abrasive for fine surface finishing work. (Cycle Jr.*02* only)

Spec

- Model number: Sand Bluster
- Specification: Circulation type
- Size (mm): 350 x 385 x 570
- Nozzle inner diameter: ϕ 4mm
- Recommended used pressure: 0.3 - 0.7MPa
- Recommended abrasive diameter: 0.180 - 0.420mm
- Power supply: AC100V 50/60Hz 150VA
- Weight: 15kg
- Accessories: Foot switch, Tube Hose (ϕ 8), Joint, Observation Window Protective Sheet, Abrasive (carborundum) 3kg
- Medical Equipment Registration Number:27B2X00306K00014
