### Features

- < ZTA series >
- Outputs displacement when connected to displacement gauge mounting stand.
- Saves continuous data on USB memory to create graph without PC.
- Available with size determination output function.
- < Common to ZTA · ZTS series >
- Superior in responsiveness and reacts to rapid changes in value.
- Equalizes load to vertical and horizontal directions and realizes labor saving when used with measuring stand.
- Equipped with measuring stand (MX2-500N) enables accurate and stable measurement by digital setting and suitable for endurance test.

### Spec

- Graph creation software (Windows(R) XP/Vista™/7 supported)
- \*Graph creation software and measurement stand are for both ZTS series and ZTA series
- Model number: Force Recorder-Light

▶ Package size : 155×175×25 mm 70 g
