Demo Unit

Features

- The sensor cord is long (700 mm) and you can check the temperature inside the refrigerator without opening the door.
- * This is an eco-friendly thermometer that does not require a power supply because it is liquid inflatable.

Spec

- The calibration point is 1 point at 23 degrees Celsius. If you would like additional points, please contact us separately.

▶ Package size : 265×365×80 mm 470 g
