STK55LK-M 8	M 8×1.25	13	33
STK55LK-M10	M10×1.5	17	35

Stud

Part Number	L	Weight (g)
STK55×20LK-SUS	20	44
STK55×40LK-SUS	40	52

How To Use

Installation

No key is required.

Removal

Without a security key, the knob only spins free and can not be removed (do not turn the key after inserting it into the key hole).

Features:

- Knob that is designed for security.
- The flange is ultrasonically welded into the lobe cap, to prevent the penetration of dirt, dust or liquid.

Notes:

Use in hot or highly humid circumstances can deteriorate the plastic material properties.

Technical Information

Working temperature : -30°C to 100°C
