

The highest level of ionization in its class.

- Sensing and variable-AC system provides fast and meticulous ionization.
- Linked Ionizers cover a wide area without causing uneven ionization.
- Digital ion display provides simple and reliable settings.

For the most recent information on models that have been certified for safety standards, refer to your OMRON website.

Refer to *Safety Precautions* on page 4.

System Configuration

Ionizer ZJ-BAS

I/O Cable ZJ-BAS-FC

Used for connecting external devices.

Power supply cable

Select from the two available types.

Cable with Connector on One End
ZJ-BAS-MC□□A

Cable with Connectors on Both Ends
ZJ-BAS-MC□□B

Used when using a DC power supply. Used when using an AC adapter.

AC Adapter ZJ-BAS-PS01

When Linking Ionizers

Linking Bracket Set ZJ9-BAS-L01

Power Supply Cable (for linking Ionizers) ZJ-BAS-MC□□RB

The length of the cables that can be linked depends on the number of Ionizers to be linked together. Contact your OMRON sales representative for details.
